Pevsner Architectural Guides Bath

Synopsis

This delightful book is the first comprehensive architectural guide to Bath, England's finest Georgian city. Full of new discoveries and lively descriptions of the city's notable buildings, the book follows in the great tradition of the Pevsner series. It features superb, specially taken color illustrations throughout and numerous easy-to-use walking maps. The great set-pieces of Bath; the famous Pump Room, The Circus, Royal Crescent; are embedded in a graceful urban landscape developed by a long succession of gifted local architects. The city's Roman roots are represented by the remains of its extraordinary baths, its medieval prosperity by the splendid Abbey. Exquisite villas and terraces on the surrounding hills add further variety. For all who share an interest in the buildings of Bath; from architect to historian, tourist to armchair traveler; this is an irresistible volume.

Customer Reviews

This is the second paperback City Guide in the Buildings of England series

Michael Forsyth is director of studies on the conservation of historic buildings course at the University of Bath.

Was very pleased with the customer service of the seller. This guide is both authoritative on the city of Bath's architectural history and its walking tour guides are practical. Should be useful for the

tourist, the amateur or young scholar with an interest in architectural history.

We enjoy looking at and learning about architecture when we travel. This book will serve as our "personal guide" for Bath. The book is heavy, weighing about 20 oz and thus adding weight to our planned walk-about. But it will be worth it !
