Meal prep is one of those necessary evils for me! It takes a lot of planning on the front end, but you can reap the benefits all week long! After many Sundays spent trying to perfect the science of meal prep, I've found a handful of recipes that just work better than others to stay in the refrigerator or freezer all week long, so today I'm sharing how to meal prep, along with tips and tricks. I am intimidated by cooking, luckily there are tons of sneaky tricks that can help make assembling delicious meals a cinch. From easy breakfast options to methods for whipping up meals in bulk, this book have got expert tips to set yourself up for a fuss-free and healthy week. Whip out your favorite plastic container (we're loving these leak-proof options) and get started.
