## Customer Reviews

I LOVE LOVE LOVE this coloring book! My first one somehow got tied up in shipping, so I helped replace my order, which is fantastic. This book has very AWESOME coloring pages in it. Each page tears out if you wish, so that you can use a clip board, or frame them when you are done. The pages are fairly thick. The markers that I use with my coloring book, do not bleed through onto the back side, so even though each page is double sided, I don't have to worry about only being able to color one side. The book is HUGE. I didn't expect it to be so thick. It has TONS of pages. I really do love it!! In fact, I love it so much, I just purchased a second one in the series, the Mandalas one!

The book says it's 120 pictures and the detailed info says it's 128 pages, so I expected it to be single-sided pages, but no... it's printed on both sides of each page! Plus about half of the pictures

are not very complicated. They are just repeating geographic shapes, frequently just the same simple shape printed over and over again on the page. Actually kind of sucks.

This book has both sides of the paper printed. I use markers so this book is of no use to me. I like my pages perforated. I always remove the page before coloring it.

There are over 120 different designs to color here. Some are sort of intense, and some are very simple. The pages are thick and there is a design on each side of the paper. You can use markers, crayons, or colored pencils or whatever you have. Pages are perforated for easy pull out. I really like these designs and I know that it will take quite a while to color all of these pages but it is relaxing. This is a good coloring book to purchase and provides ample entertainment.

Lots of great and exciting patterns. I already owned the Mandalas coloring book done by this company (which I think is just slightly stronger), however, this book offers a wider range if scale in the designs from very intricate to larger and less detailed. I've had the mandalas book for two years now, and I'm haven't even colored half of the pages! Great gift (for someone with good eyesight and fine-tipped gel pens.)

Love it.

Great designs!

Another favorite adult color book. I really appreciate these books offering a variety of designs for our different doodle moods.
