Wicked Impulse

Synopsis

There's only one thing worse than dating a friend's sister - sleeping with his mother. Fran DeLuca's known for her bossy, overbearing personality almost as much as for her love of nylon tracksuits. But when someone runs off with 50,000 dollars, she becomes involved in an ALFA investigation and catches the eye of silver fox biker, Bear. Bear North, ALFA's resident bad boy, has never thought of Fran as anything more than his buddy's mom. When she trades in her elastic pants and orthopedic tennis shoes for a pair of skintight jeans and high heels, he takes notice of the 50-something MILF. When the money trail leads closer to Fran than expected, Bear takes charge of the investigation and will do anything to protect her. Can Bear track a thief, claim Fran, and keep Morgan DeLuca in the dark long enough to solve the case?

Customer Reviews

>Book review *Wicked Impulse*>I am an independent reviewer. This book is the third in the ALFA PI series and ends in an HEA. We finally get to read Bear's story. His backstory is heartbreaking and helps to explain Bear. He is wracked with guilt over his children and thinks love has come and gone for him. Fran is Bear's friend's mom. I had a hard time seeing them together at first. I forgot that Bear was a lot older than Morgan and thinking of a May/Dec relationship didn't work for me. Once I got all the ages square in my head, the story started to work.>Fran is something else. She is a Gallo, so her openness with sex shouldn't surprise me, but she is really aggressive sometimes. I was glad to see a mature woman with a healthy sex drive for once. The

funniest part of this story was seeing how Morgan reacts to his mom and Bear together. The plot in this story is almost secondary to the relationships and the reactions to the relationships. >Bear's kids are introduced. His son is a Dominant and describes his girlfriend as a Submissive. Nothing else is really mentioned, so I am hoping more comes to light in a future story. The Christmas story at the end of this book has all of the previous characters and their many children. Their love of each other and the kids shine through. Nothing was funnier than Sal choking up while saying grace and thanking God for the Cubs winning. >This book is appropriate for an adult audience. I am giving the story 5 stars. This story is everything you'd expect from these characters.

I love everything this woman writes and Bear and Fran are no exception. It was such a breath of fresh air to read about two people in their fifties who were still just as frisky and loving life as their younger family and friends. I absolutely loved this story from the minute I started reading it. I have always been a fan of Bear since Chelle first introduced him in Throttle Me. He has a ruggedness that totally appeals to me, but there was always that soft side that drew me in further. To pair Bear with Fran deLuca was a work of genius. The occasional glimpses that Chelle has given of Fran had totally endeared her to me, strong, fiesty, sassy and full of determination. Bear has always admired Fran from afar, but when his latest ALFA case brings them even closer, Bear finally gets to see another side of Fran - a hot, sizzling, sexy woman. The chemistry between these two is simply "off the planet", making for some very sizzling scenes (you'll definitely need a fan when you read them). I loved the interaction between Fran and her sister Maria in this book. When they are together, everybody must be on alert. There's no censoring once they start. From shopping for some ultra sexy clothing, talking sex to dancing on tables. These two women are the life of the world of the Gallos and their friends. As usual Chelle weaves a lot more into her books than normal romance writers. There's murder, mystery, intrigue, wicked humour and of course those dirty, dirty sex scenes she is famous for. This book and series is an absolute MUST READ - as are all of Chelle's books. Definitely FIVE WICKED STARS from me. Voluntarily reviewed for Reading Is Our Satisfaction Blog.

I loved these characters. Who doesn't love all the characters from The Men of Inked and the new connections at ALFA PI? Bear is so great. I love seeing the different sides to him that don't come out in the others books. I really enjoyed reading about his relationship with Fran and watching it unfold and blossom. Fran is a sassy spitfire. That wasn't something that I got from her in the first

ALFA book, but boy did she deliver in this. She had finally found herself and who she wants to be and who she wants to be with. I loved her telling the guys off when they were overstepping. She is great when she really lets go. I really liked the scenes where Fran invites Bear's kids over to meet and let Bear make amends for his past behavior. The feelings were strong and the emotion high. We meet Fran's ex and learn secrets about her past. I love how Bear treats her and takes on the challenge of protecting her and their loved ones. I really enjoyed this book and I'm sure you will too.

I love Chelle Bliss books so much she never disappoints. This book is yet another fantastic story from her alpha investigation company and families. Bear is the beast in the company and a father figure to most of the men there. He is the strong deadly type. Love them and leave them silver fox. Bear has scars from his past pains no one really knows about. He will protect anyone he loves with his life. Bear has loved Fran from a far this is his friend Morgan's mom. He doesn't want to cross that line. Guess what life has a way of pushing you to your path. Fran wants and needs more. She gives up her track suits and becomes one fine sexy mama with a little help. She wants Bear and she fights for him. No one will get in her way including her son. Learning and loving from the past to the present. Bear and Fran find a love later in life that is strong and true. Bring on the family. I couldn't wait to read Bear/Fran story. Go get your copy you will enjoy it from the first page to the last page.
