How To Build A Solar Charged Remote Control Electric Lawn Mower

Synopsis

This step-by-step eBook will show you how to build Robert Smith’s solar charged remote control electric lawn mower (SCRCELM). This eBook is divided into 15 easy to follow chapters that cover everything you need to know in order to either replicate Robert’s version of a remote control (RC) lawn mower, or gain more knowledge of one method of many, on how to create a fully functional environmentally friendly RC lawn mower. Each chapter of this eBook addresses specific steps of the project, and explains in detail what components you will need and how to implement them.

Customer Reviews

Very useful and creative reading, very detailed instruction, I'm now thinking to build one just like the one in the book
