Meyer writes a valuable and convincing primer on what Buddhists would call "mindfulness" from a dedicated Christian perspective. Using a rich scriptural context, she convinces listeners "to think what you are thinking about." Filled with many anecdotes from ministry, her points are made in a accessible and personable style. The psychology is sound though ensconced in conservative Christian language. Happily, Meyers encourages meditation, both on scripture and in prayer as a way to be in the moment.

Joyce Meyer has been teaching the Word of God since 1976 and in full-time ministry since 1980.

She is the bestselling author of more than seventy inspirational books, including Approval Addiction, In Pursuit of Peace, How to Hear from God, and Battlefield of the Mind. She has also released thousands of audio teachings as well as a complete video library. Joyceâ™s Enjoying Everyday LifeÂ® radio and television programs are broadcast around the world, and she travels extensively conducting conferences. Joyce and her husband, Dave, are the parents of four grown children and make their home in St. Louis, Missouri.

Joyce Meyer is a talented, dedicated warrior. She has undergone many of the same trials that each person has endured. When you study her insights you really start understanding what you say is how you live. When I was younger, a stay at home mom, I would say that my family was just like the soap opera All My Children. We had one crisis after another. Then I listened to Mrs. Meyer's teaching. I quit making the negative statements and watched my family return to peace. The Battle is in our minds.. The weapons are the Words that we think then speak. One has to change how you think so that the speech you hear will lift upward, not squash you.

This book is a must for everyone to read. We all have mind games going on that make us uncomfortable or angry. Thought that keep us living in the past instead of today. Baggage from formal relationships that we would want to rid our minds of and live for today. This book explains first to identify the thoughts, how to release their power on us, and to rid ourselves of entering into that thought again. We are not perfect but we can live a better life without baggage. All with the love and understanding of our Creators way to a happy and healthy life. Please read this. You will want to pass it on.

One of the best books ever made! This book takes you on a journey of how your past dictates your thinking. It allows you to release all that junk in your mind and to think Christ like despite your circumstances.

I could not wait to get this book. I started reading it as soon as we received it. I bought several of her books , and this one is just great. If you are a Christian or not she really gets to the heart of why our minds just get negative sometimes and how to turn these thoughts around and find a way to think more positively about anything. I just wish she would talk more about what any one goes through not just Christians. Because it will help everyone.

This really is a great book. I recommend getting the study guide to hit it a second time. Discussing it with your significant other will be a third hit to the mind. Following the three touch rule, hopefully, you can commit some of the information in this book to memory to assist in modifying the way you think about things to ensure the best possible attitude and outlook on life. I highly recommend this book.

Was introduced to the book after watching Joyce Meyer on television. This book is an absolute game changer. It truly changed my life. The book touches on several different topics for believers of every faith. It's amazing how well thought out this book is. I have given several out as gifts, and it has impacted those lives so much. I could go on and on about Joyce and how God is tremendously using her to help people. Very good book, would highly recommend to anyone looking for purpose in life or going through a tough time.

Understanding where and how the enemy fights the people of God, give us the wisdom and knowledge to be productive in this warfare. So we don't spend too much time fighting each other!!

I love the short devotionals. They keep you focused and mindful of how you think, what you do, and how you treat others; also provides a way to use one quote each day. Just 10 min and the quote filters into your mind at intervals all day long. This is a great way to change your perspective on your truth and reality that doesn't require a lot of time that we all think we don't have.
