What If You Had Animal Hair?

Synopsis

If you could have any animal's hair, whose would you choose? If you had a polar bear's double coat, you would never have to wear a hat when playing in the snow. If you had reindeer hair, it could help you stay afloat in water. And if you had a porcupine's hair, no bully would ever bother you again! **WHAT IF YOU HAD ANIMAL HAIR?** is a follow-up to the adorable **WHAT IF YOU HAD ANIMAL TEETH?** Each spread will feature a photographic image of the animal and its hair on the left and an illustration of a child with that animal's hair on the right. As in **ANIMAL TEETH**, the illustrations will be humorous and will accompany informative text.

I bought this book (along with the other books in the series) to go along with our 4th grade unit on animal adaptations. My students LOVE them! I can hardly keep them on the book shelf of my classroom library! The illustrations are charming and even inspired several of my students to create their OWN illustrations of themselves with animal body parts. The author did a great job of teaching an important science concept in a funny, engaging way. I love these books so much that I just pre-ordered the next book in the series, which is coming out right as school is starting. These books would make a great addition to ANY collection, whether it's at home or at school or whether it's for learning or just for fun. You'll enjoy them for sure!

My son loves these book! And i do too! He loves animals and pretends to be something daily lol so these books are right up his alley they basically tell you why animals have certain hair or teeth and what they do with them also talks about what it would be like if you had animals hair/teeth, then at the very end it explains why humans have our type. He also really enjoys the "who would win" books, i would recommend those too.

This whole series is pretty cool. I ordered it for my preschool classroom to read just a few pages here and there during our Animal Unit. They loved it.

Great book! Kids love it and it's an AR book. Lots of interesting information, in a very appealing presentation. Item as described .

Love this book series! My kindergarteners loved reading and completing fun responses about this book.

Such cute books! I want to buy all of these!! So fun and my students love them!

My firsties love this book!

The "What if You Had" series are some of the most fun books a child could read!!! Great mix of facts and fun, focused on the younger reader! Adults can learn a few things from the books as well, and

will have a great time reading with their younger readers. Illustrations are great and full of imagination!
