## **Customer Reviews**

It's true. One of the 7 questions was asked during the phone interview... #3. However, I learned at the end of the interview that it was a fishing expedition. The interviewer started by asking me what employment I had BEFORE my first entry on my resume and then after covering what was on my resume, double backed again to what I did before. I was disappointed since it didn't seem that 18+ years experience in one position was not good enough, but trying to determine how old I was. I would recommend this book-- it's quick and gets to the point. I did get a job in another interview-- face to face and I based my responses entirely on the ones recommended in the book. It set me at ease even though I was nervous! It helped to break the ice when I mentioned I was nervous too...

the interviewer quickly became less formal... Thanks much for this...

I purchased this to assist me in preparing to interview for my dream job, which I NAILED! There is a TON of knowledge here, and the prep questions are a great way to get your mind in the right frame to interview. I cannot recommend this book enough - it would be a bargain at twice the price.

This is a good book as it is an easy read and gives a good insight into most common questions that are asked during a interview.

Tips and tricks about interviewing and how to land your first job are in this book it teaches you what employees are looking for and how to impress them at every turn great read for those fresh out of school

Great insight into preparing for interview...Still use everytime

Easy read, small and to the point!

Extremely helpful, good read for anyone looking to push their career forward.

Good explanation of behavioral questions
