Customer Reviews

This is a great book that helped me understand what to do when you get in a car accident. It explained details like when you need to get an attorney involved, medical expenses, and what to do if you get in a hit and run or an accident with an uninsured motorist. It's full of good knowledge that hopefully you will never need but it's still good to be prepared for yourself and your loved ones.

This is a great little book if you are looking for information about what steps to follow if you have an

auto accident. There are so many things to be concerned about not the least is where to start. This book breaks it all down and takes out the emotion of what can be a very difficult experience. Very helpful. With thanks to the author.Â The Ultimate California Auto Accident Handbook

Ed Smith is a rare breed... an attorney who really cares about the people he represents... I know - I was one of them. This book is a clear, concise account of what to do in case of an accident. It's a book I hope you will never need to use, but nonetheless, it helps one be prepared for what could be a traumatizing and costly event. Very helpful and informative.

This is an excellent book if you want to understand how the system works. Very clear, concise, and helpful. Dorajane Grummer

Mr Smith has placed a great deal of information in this handbook that allows a person to really reflect on the things one must do before seeking the right attorney for the job. It's good to see a lawyer with a personal appeal who cares about providing the best service. The customer is the key and Mr. Smith recognizes and respects this.
