Customer Reviews

Dr. Graham, the editor, has put together an excellent resource for both novice and advanced clinicians that will be used daily for review of differential diagnoses and useful diagnostic tests or treatments for a specific condition. This book can be used as an aid to prevent things from being overlooked and will be particularly valuable to practitioners who examine and treat avian patients as part of a mixed-species caseload. (Journal of the American Veterinary Medical Association, Dec 15th 2016)"This is an important addition to the already fantastic variety of avian medicine books. It sets itself apart by following the format of the other Five-Minute Veterinary Consult books and provides readers with helpful reviews and reminders for proper case management, all in a short

amount of time." (Doody Enterprises, 2016)Â Â

Blackwell's Five-Minute Veterinary Consult: Avian presents complete information on diseases and conditions seen in birds in a quick-reference format ideal for clinical practice.Â Â This new volume in the Five-Minute Veterinary Consult series offers 128 identically formatted topics on avian syndromes, written by the leading experts in the field.Â Â A companion website provides client education handouts in Word, which can be downloaded, edited, and given to clients. Covering topics ranging from adenovirus to xanthoma, the book makes it easy to quickly find information on common conditions seen in birds.Â Â Whether avian patients are a regular or occasional part of your caseload, youÂ Â will find this practical reference an invaluable addition to your practice library.
