Beekeeping: An Easy Guide For Getting Started With Beekeeping And Valuable Things To Know When Producing Honey And Keeping Bees

Synopsis

Two audiobooks in one: Beekeeping: An Easy Guide for Getting Started with Beekeeping
Beekeeping: Valuable Things to Know When Producing Honey and Keeping Bees An Easy Guide for Getting Started with Beekeeping Beekeeping is a fun, easy-to-learn, inexpensive, and uniquely rewarding hobby that nearly anyone can do. Perhaps that's why it's growing in popularity, with new members joining local and national beekeeping groups in greater numbers each year, and new apiculture conferences and even scholarships coming online. Interest is up all around the world, as evidenced by numerous backyard beekeeping meetups, community workshops, and beekeeper training events that seem to crop up almost everywhere you look. This audiobook contains a wealth of knowledge that comes from years of experience, distilled down to the essentials that every beginner needs. It offers practical advice to guide you all the way through your first season, from sourcing bees and equipment right through harvesting honey and preparing the hive for winter. Wherever I could, I also included tidbits, tricks, and shortcuts I wish I had known starting out - anything to make the job of beekeeping easier for you on your first time out.

Best Sellers Rank: #9 in Books > Audible Audiobooks > Nonfiction > Lifestyle & Home > Crafts & Hobbies #41 in Books > Crafts, Hobbies & Home > Crafts & Hobbies > Nature Crafts #52 in Books > Crafts, Hobbies & Home > Crafts & Hobbies > Seasonal

Customer Reviews

This is a great book on Beekeeping. All of the things, tips, and guides that I need to know about Beekeeping are already revealed and well-illustrated here. Celine Walker has done a very good job in compiling and creating this book of Beekeeping. Also the unique part of this book is the compilations of the "Problems to Watch Out For" & Harvest and Winterization - very

informative, useful, practical and interesting. This book is really a great resource for you to learn more about Beekeeping. Overall, this book is worth reading! I highly recommend this book to all. With that, I'd like to give this book a Very High and Amazing 5-Star.

I love the honeybee and beekeeping. This book clearly communicates what it means to be a beekeeper in today's day and age. Keep up the good work Celine Walker. This book is recommended reading for anyone interested in the honeybee.

FYI; I am not actually a beekeeper, I might be! But, currently I am a student. I read this book for experimental assignment on my biology subject. I could say that this book is truly informative, I got all the information that I need about beekeeping, about the behavior and how to handle populations of these bees and gain more honey. I can recommend this book.
