## Customer Reviews

Great book for dutch oven cooking, Recommend book for anyone who wants to do dutch cooking.

A small, okay collection of dutch oven recipes. There are only about 25 recipes. Almost all of them are based on meat. Would like to have seen some more vegetarian options. The only truly vegetarian recipes were applesauce and cherry cobbler. Almost all of these recipes you could find online, so I don't feel that it really adds anything to my cookbook collection.

Good ideas.

There are several delicious dishes in this cookbook. The cookbook is easy to follow. I use my dutch oven on a stove top but I do have friends who actually use theirs outside with charcoal and the recipes have turned out just as delicious.

Great mix of recipes, but while just browsing through the ebook, I noticed that one of the recipes is clearly missing part of the instructions. I haven't read through all of the recipes so there may be other errors.

I have made over half of the recipes so far and I have to say the instructions were clear and consise! Even though I am aa novice dutch oven chef, this book helped me cook like a pro!

Most of these are recipes that can be picked up on any cooking blog or Google search. I thought I'd see something different here.

I have tried several of these recipes so far. My family enjoyed them all!
