To Have Loved & Lost: A New Adult Lesbian Romance (Rosemont Duology Book 1)

Synopsis

When two people's lives are spiraling out of control, can coming together pull both of them back up? Alexis Woods knows who she is – or at least, she thought she did. She's number 17, point guard, MVP, all-star, co-captain of the Lady Raiders NCAA Division I women's basketball team. But there's a darkness growing inside of her, a darkness that started the night her beloved died in her arms, and if she doesn't turn things around soon, the darkness just might swallow her whole. Graham Griffin knows a thing or two about darkness. That's been her zip code ever since the car accident that took her boyfriend's life – the car accident she caused. When she meets Alex, she sees a reflection of her own sorrow. And she can't help but want to fix it.

This story was 'okay' but the third person present tense narration drove me to distraction.

My First Time reading something by Eliza Andrews and apparently this was Her First Time writing a Lesbian romance novel. And I gotta say.....OH MY and YOU NAILED IT !!! It's almost impossible to believe this was Her First attempt writing a Lesbian romance novel ! I am so so happy I decided to give this author a chance and I would definitely recommend this book to any one gay or straight that enjoys a story that makes you tear up, grin and laugh, that makes you heat up :-) This novel just checked off all my boxes. I didn't want to put it down, didn't want there to be an end. I love any story that hooks me to the point where I feel like characters are real and that I connect with them in some way. Excellent book ! Thank you Miss Andrews.

I loved everything about this book except for going back and fourth in time. It's just not something I like. I loved the characters and the setting. I found myself really engaged at times and even talking back to the book. Overall, totally an awesome read!

"To Have Loved and Lost" was good, very good in fact. The characters were strong and well developed, but what I got the most from the story was the bonds of love, commitment and loyalty that both Graham and Alexis ultimately developed with each other and the ones they had with their closest friends, the ones that truly had their backs. I also really liked how Alexis & Graham worked through their pasts and their insecurities to develop a beautiful loving and trusting relationship. There are so many Lesbian Romance books available and I am certain it's hard to write one with a new twist or one that is not similar to another, but this is good.

I absolutely LOVED this book. The writing is flawless, the characters are fully engaging, and it's long enough to develop their relationship. I am stunned that this is the author's first lesbian romance. It has a happy ending and I especially liked the fact that it gave a snapshot of these women's lives years down the road. I have read many many lesbian novels and this one is in my top 5. And of course, I stayed up all night reading it.

Eliza Andrews is new to the lesbian romance genre, and this book is quite the arrival. I read it in a day and then had readers remorse, because I was sad to leave the characters. I was happy to read that the next book will be focused on Anika, as she was one of my favorites. I can honestly say that this a truly refreshing portrayal of a bisexual character (about time). Alex and Graham would be considered well written and emotionally complex in any genre. I love my fluffy, junky romance novels, but I love this book more. It has a heart and authenticity that really resonates (and a pretty awesome rant from the author at the end). Enjoy!

Graham, Alex and the other supporting characters will take you on a journey through the world of the game. Life is not the same game. These characters all have their own baggage, and let me say, some of it is very heavy. This book is a great exception to the average love story. It does not end as most do. This author takes you into the characters lives and down the road into their future. Exceptional read.

Good book, really entertaining, i liked the the characters, and I liked the fact that it wasn't pam bam i'm in love type of "love story" it took their time which makes it more realistic. I recommend this book.
