9 Things A Leader Must Do: How To Go To The Next Level--And Take Others With You

Synopsis

Why do some leaders get and accomplish what they want as a matter of routine, while others seem to regularly experience frustration and setbacks? Why do some leaders achieve their goals and reach new heights, while others barely "hang in there" and survive? Based on his groundbreaking psychological study of the ways that successful individuals think and behave, Dr. Henry Cloud presents a simple yet profound roadmap to help leaders-and those who want to become leaders-arrive at greater levels of personal growth and corporate influence than they previously thought were possible. The good news for all of us is that leadership success is not limited to vague notions of "charisma" nor traditional advantages like graduate degrees and connections, but much more to a pattern of thinking and moving forward that learns from mistakes and stays focused on goals.

Customer Reviews

Read this book, you won't regret it! I was very, very glad I spent the money to buy this book. Few

books on leadership are so easy to read, comprehend and apply...mainly because the author doesn't attempt to make you the reader a clone of himself, rather he helps one to see leadership abilities are extracted; being already present and active in ones life, just simply unnoticed.

Realistic steps to get to the person God created you to be. We all get there eventually but this easy to read book puts the steps in one place. Helpful in business and personal relationships.

This was a wonderful book. I have already started using and applying the techniques Dr. Cloud suggested. I am looking forward to reading it again and his other books!

This book made me look at things in a new perspective. I really hope to take things from this book and apply them now.

Amazing analysis of leadership! One of the best books that I have ever read about leadership. Practical and comprehensive without being the least bit boring. I have already recommended the book to several others. It was recommended to me by a former Xerox Sales Trainer.

This book shows you practical steps of being successful in all areas of life. It applies to parenting, relationships and business leaders. It is very encouraging.

I loved the personal examples that illustrated his points. Everything was easy-to-understand, well-explained, realistic, practical, and sensible. It is an awesome book I totally recommend!

We really liked 9 Things Every Successful Person Must Do so we bought this one too. Turns out it is the same book only condensed with some terms changed. You just need to read one or the other. Very good books though.
