Customer Reviews

This should have been called "Dumb Looking Aliens in Outer Space". There are maybe two or three pages of astronauts and space crafts. The rest is just stupid looking aliens.

This was a gift for a 4 yr old. She LOVED it.

great

Fun graphics, astronauts in space suits, rockets, and more, including planets. Good for kids of any age who love to color.

Great coloring book!

This book was adorable and one of a kind. My son loves it. The pages and drawings are really simple. There isn't an overwhelming amount of picture on one page. Great for someone who has anxiety like my son.

Received this as a gift for my rocket loving daughter. Nice quality coloring book. There is a nice variety of both simple and complex illustrations for her to color. Lots of room to draw aliens and moons in the margins. Nice paper too.

My 5 year old loves it! Good quality, nice variety.
