This really is a great way to learn. The book accompanied by the CD help you learn not only the words but the pronunciations. And it really helps to hear the words spoken in context. Learning the words and then understanding them in conversation are very different things.

My husband and I have been taking an Italian language course and the teacher told us to order this book for the course. Each chapter, while thorough is really intense and we'll need to go back through our completed exercises for review in order to get the most benefit.

I am using this book in an adult beginner class and I am finding it very helpful in many ways such as dialogues and vocabulary. The one thing it lacks is an index, which may have been addressed in later editions.

I am taking Italian lessons in our community and this is a good addition to the presentation that our instructor does.

I just got started with this book/package and already am confident that I will learn to speak, read, listen to, and write Italian. Well done!

Excellent useful day to day vocabulary and exercises.

works well for my adult class

Excellent Condition.
