Cindy Garoutte has been diving and photographing the Bay Islands extensively for the last ten years. For four years she lived in the islands managing several resort photography operations, and lecturing on underwater photography and videography. Her video productions have included marine and environmental topics, and her articles and photographs have appeared in numerous publications worldwide.

We were going here on vacation scuba diving and wanted to get some ideas on the types of dive sites to expect. The book was not current at all. Please update the book. Our trip here went well, but

the book was not too helpful.

The pictures gave a great photo diary of the different islands and their undersea habitats. Although the text was written some time back, it is still the best description available.

This is by far the best dive guide to the Bay Islands of Honduras we've seen that's still in print. And by the way, if you're a diver, you'll LOVE Roatan!!!

This is a great book for the area. I actually spend time with Cindy, the author in Utila for a couple of weeks. She is a wonderful, talented, and dedicated woman and this book shows all of her best features. The pictures are beautiful and vivid and her knowledge of the area is very useful. For anyone diving in the bay islands, this is a great pick.
