From IT Pro To Cloud Pro Microsoft Office 365 And SharePoint Online (IT Best Practices - Microsoft Press)

Synopsis

Modernize your IT skills for the new world of cloud computing! Whether you are an IT administrator, developer, or architect, cloud technologies are transforming your role. This guide brings together the knowledge you need to transition smoothly to Microsoft Office 365 cloud-only and hybrid environments. Microsoft MVP Ben Curry and leading cloud architect Brian Laws present specific, up-to-date guidance on administering key cloud technologies, including Microsoft Office 365, SharePoint Online, Azure AD, and OneDrive for Business. Microsoft cloud technology experts Ben Curry and Brian Laws show you how to:

- Anticipate and respond to the ways cloud technologies change your responsibilities, such as scripting key management tasks via Windows PowerShell
- Understand today's new mix of essential "Cloud Pro" skills related to infrastructure, scripting, security, and networking
- Master modern cloud administration for Office 365 cloud and hybrid environments to deliver content and services, any time, on any device, from anywhere, and across organizational boundaries
- Administer and configure SharePoint Online, including services, site collections, and hybrid features
- Help secure client devices via Mobile Device Management for Office 365
- Centrally manage user profiles, groups, apps, and social features
- Bridge Office 365 and on-premises environments to share identities and data
- Enforce governance, security, and compliance

Customer Reviews

BEN CURRY is founding partner, principal architect, and technology strategist at Summit 7 Systems, a Microsoft Gold Partner in cloud productivity, collaboration, and content management. He is a 10-time Microsoft MVP in SharePoint and Office 365 technologies. BRIAN LAWS is a Cloud Architect at Summit 7 Systems, a Microsoft Gold Partner in cloud productivity, collaboration, and content management. He has been deep in SharePoint since the 2007 version and has worn the infrastructure, developer, and architecture hats. His head is usually in the Cloud, dreaming about PowerShell and automation. Outside of work, Brian tries to spend as much as he can with his wife and kids. Whenever he gets the opportunity, he enjoys reading comics, playing video games, and keeping up with his favorite shows. He is a geek through-and-through.

Full disclosure I provided some PowerShell for the book but until I bought it I had never seen any of the other content. Really impressed with what is provided. To my knowledge there isn't another book that attempts to address the transition to the cloud like this does. As an example, if you are on premises SharePoint technologist there will be big changes in how you use PowerShell.

Good reference.

Good Book.
