Customer Reviews

Barbara Ellis, a former gardening editor at Rodale Press and the publications director of the American Horticultural Society, is the author of many gardening books, including THE RODALE ALL-NEW ENCYCLOPEDIA OF ORGANIC GARDENING and THE BURPEE COMPLETE GARDENER as well as several TAYLOR'S WEEKEND GARDENING GUIDES. She resides in Alburtis, Pennsylvania.

This is probably a fine book, but the photographs are in order by genus; not color like the original--much more useful book So, if you want to find a plant, you'd better know the genus or common name or you'll spend a lot of time searching, for example, for a low purple flower. Here's a

photo of some pages from the book I thought I was buying---that I wanted to buy.

Very informative book for the beginner flower gardener. Well worth the price for some fine advice anytime needed.

I wanted to learn more about perennials so I purchased this book. It has good information about a variety of perennials so I found it helpful. It has pictures of most of the flowers and it provides information on which zones to plant them in and how to care for them. I've planted several perennials in my garden but I wasn't sure how to care for them.

My wife spotted this book at The Rock Pile in Avon Lake, O., our gardening shop, but it was for reference, not for sale. She mentioned in July it would make a nice Christmas present, and that SUBTLE HINT didn't escape me!! She loves it as a compendium of gardening greenery, and that's good enough for me#

Good reference book. Nice pictures.

I choose this rating because I feel it covered quite a line up of perennials that I thought was desirable. The photos are exceptional and helps to chose which ones would be best to put on your want list when you go shopping ,makes it convenient and less confusing with all the chooses you have.

Beautiful and informative

very good info for basic gardening
