Wipe Clean Workbook: Cursive Handwriting (Wipe Clean Learning Books)

Synopsis

Boost your child's confidence by helping them to learn cursive handwriting with this wipe-clean workbook. On each page there are letter outlines to trace over, with an area for free-hand copying. Included with the book is a special pen, and the wipe-clean pages enable children to practice over and over to improve their pen control and writing skills until they have mastered handwriting. With bright photographic images to engage and encourage, this early-learning workbook will support your child during their early school years.

Roger Priddy's passion for educating children through fun, informative and engaging books has led him to create some of publishing's most enduring and successful nonfiction early learning books. Roger lives in London and has three children, who have been the inspiration behind many of his best publishing ideas.

Don't make my mistake. Double check that all the pages are correct before your return timeframe expires!

My 3 year old daughter is in preschool and has been learning how to trace her name. I went on a search to find a book that she can trace the same letter over and over before having to erase. When I found this book and looked on the inside I knew this is what I was looking for. I purchased this one and the lower case alphabet, numbers 1-20 and the tracing shapes one. I also ordered the dry erase crayola crayons with it too based on some reviews I read before ordering. I just love these books now that I have them. My daughter will sit for hours just tracing in all the books! I haven't even bothered with the pen that came with the books cause the dry erase crayons work great! You have to use a little bit of pressure to get it all off but for the most part my daughter can do that herself. If you are looking for a great tracing book you have found it! :)

Wonderful workbook with spiral binding. Neat way to practice your letters. It starts systematically from looking, understanding, tracing until the lines fade away and you write by yourself. I ordered the lowercase letters, numbers and pen control as well. My only suggestion would be to club the uppercase A and lower case a together so they know they are writing the same letter, but that's insignificant. I'm happy with the product, I did not receive any pen along with it and don't care for it anyways. I bought the expo darker colours.

My 4-year-old loves this book and tried out all the letters on the first day we had it. Within two weeks, she was writing the letters "L," "Y", "H" and "E" on all her drawings, when previously she only knew "E"! This book has also gotten her to start writing her letters from left to right in a straight horizontal line! The dry erase marker that comes with the book is cheap and doesn't wipe off the pages. We had to purchase an Expo marker, as well as some spray, in order to fully clean the pages. Also, these markers aren't washable, so she gets very messy!

These books are a favorite with our 3 year old! I wish the included marker would leave less of a shadow once erased. We now immediately wipe with a wet wipe after she uses each page then dry well before turning the page.. a bit of a hassle, but it's become habit and keeps the pages preserved well. I would still recommend these books, though. They're cute and very fun to use.

Completely satisfied with this book. Simple and done well. Sturdy quality. 1. Excellent illustrations to introduce child to the sound letters make. 2. Excellent set-up to look / trace using correct stroke / draw inside each letter followed by traceable letters and then a blank line for the child to attempt the letter with no guideline. 3. Best part- it easily wipes clean! (what I was most concerned about) My

son erases each page before moving on to the next, so doesn't have time to stain- I would recommend this.4. We did not bother with the marker it came with based on other reviews. We bought mini quartet rewritable markers for the book.

I have a 4 year old severely autistic son. He doesn't communicate well and sometimes trying to teach him things can be very difficult and frustrating for the both of us. We have ordered a ton of the wipe clean books and I have to say, they are a life saver!! Because of these books my son is now the only one in his preschool class that can write all of his letters and numbers, draw every shape, plus write and read words. These books are a must have!

These books are awesome! My two year old is working on tracing and pen control now and he enjoys them very much. They are fairly easy to clean just make sure you clean them up immediately after use.
