There are many times when I want a quick and easy meal in a hurry--this is where this cookbook has become one of my favorites! What I like the most about this cookbook is that the recipes allow for using a mug or bowl, and I found this is a single yet generous serving. Some of my favorite

recipes are: Mug Omelet. This is delicious! Microwave Tasty Broccoli. Microwave Quick Ravoli CasseroleFor such a low price, this is a wonderful cookbook..

Poorly done. Steps left out. Looks no one read it before it was printed. Disappointed that would offer something of this quality.

I love microwave cooking, so this new book of microwave recipes by River Burk was just what I needed. The recipes are all well thought-out and easy to prepare - just right for my needs. Jake

I actually got some great info from reading this book. Very simple and easy to implement the information. I can't wait for a sequel.

Just the best for a quick meal..

This book was perfect for me. I often coined a "lazy eater", this book provided a bunch of simple, quick and easy meal options WITHOUT having to bother with a ton of appliances. There were many recipes that were also very healthy. I loved the ease and simplicity of it. I found this book very useful and would recommend to anyone who also does not like to devote a lot of time for meal prep.

I am quite lazy when I have to cook and I don't have much time to do it anyway. So the idea of this book is great, I got some recipes that I can do in few minutes and this is exactly what I was looking for

Received this as a gift. This book is clearly unedited. Lots of typos. Steps are missing. Ingredients appear in the instructions that weren't listed, or listed and not in the instructions. Some ingredients have no measurements. Some of the recipes absurdly simple, as if they are fillers. Very disappointing.
