The Werewolf's Guide To Life: A Manual For The Newly Bitten

Synopsis

Have you been attacked by a wolf-like creature in the last 30 days? Was it after the sun had set and under a full moon? If you answered, "yes" to both these questions, there's a very good chance that you were bitten by a werewolf. You now have less than a month before the full moon returns and with it your first transformation into a savage, bloodthirsty beast. Survival is an option, but first, know this: * Werewolves are real. * The majority of lycanthropes who do not have access to this book die during or shortly after their first transformations, generally due to heart failure, gunshot wounds, exposure, drowning or suicide. * Hollywood horror movies are NOT to be used as guides to living as a werewolf. Their goal is not to educate, but to entertain. As a result, they are largely ignorant of the realities of the condition. * Ignorance creates monsters; lycanthropy does not. * You are not a monster. The Werewolf's Guide to Life cuts through the fiction and guides you through your first transformation and beyond, offering indispensable advice on how to tell if you're really a werewolf, post-attack etiquette, breaking the news to your spouse, avoiding government abduction, and how to not just survive, but thrive. You cannot afford to not read this book. Your very life depends on it. --This text refers to the Paperback edition.

Book Information

Audible Audio Edition

Listening Length: 5 hours and 34 minutes

Program Type: Audiobook

Version: Unabridged

Best Sellers Rank: #67 in Books > Audible Audiobooks > Humor > Parodies #806

in Books > Audible Audiobooks > Nonfiction > Reference #1239 in Books > Humor & Entertainment > Humor > Parodies

Customer Reviews

And I ended up reading it through TWICE before I finally gave it to the person I had intended it for! It's very well written, and a real hoot if you like comical "self help"-type books. Literally the PERFECT gift for the werewolf in your life!

As a fan of anything werewolf, I had been wanting to buy this since I first saw it. Finally broke down and bit the silver bullet so to speak and enjoyed it very much. Very fang in cheek and like the best of the cheesy movies, takes itself oh so seriously. Love it.

Love, love, love this book. The amount of work and detail that has gone into this is nothing short of amazing. Definitely the standard for all guides of this nature.

Good resource and entertainment for werewolf lovers.

If becoming a werewolf was true this book would be the great "user's manual" of being a werewolf. It has some great comedy and ideas in it. At times it made me wish I was a werewolf and for those who want a good laugh and imagine what it would be like to be a werewolf this is the book.

the book had a lot of facts and was very entertaining. I am a werewolf enthusiast and i will admit i was blow away

Would have liked a bit more tongue in cheek humor, this has been a bit dry like stereo equipment manuals.

I prefer books with more personal story lines, but this book is written as a "How To" handle being a newly bitten werewolf. Fun to read from that perspective.
