## Customer Reviews

Our 11 year old and I borrowed this from our library to solve together! I have to admit that on some clues we were useless! This is not an easy mystery to solve so if you are looking for a challenge then this is likely a good book for you. We found some of the clues easy to solve but others, you needed to remember what you had read pages back. My advice to you would be to read it all in one go! We read it over 3 nights which was part of the problem as we had forgotten some of what we had read! We did LOVE the joke written in morse code which was a complete red herring but created a laugh amongst even the younger child. Clues on one page and answers on another are provided in the back for those of us who need them!
