## Customer Reviews

Even though this book is out-of-date for the present-day GED used in Texas, it serves my purposes very well to help me prepare a blind student. It will take her a year or two to be ready for the up-to-date prep book, and this book will be a good "pre-prep" to the instruction needed a couple of years from now. This is also a good book for my grandson in high school who is trying to up his SAT score but is not yet ready for the SAT prep level.

Love this!!! I needed help studying for the Ged, and this is a wonderful book for that!!!

Steck-Vaughn is my favorite publisher for teaching adult education. This Pre-GED series gets them ready for GED Prep in an organized way, but you can also use many of the pages as worksheets for lower level ABE...even grade levels 3 or 4.
