Mubarak Al-Sabah: The Foundation Of Kuwait

Synopsis

Amidst political upheaval and the decline of the Ottoman Empire, the State of Kuwait emerged as an independent country under British protection in 1899, with Sheikh Mubarak Al Sabah widely accredited as the instrument of its foundation. But the path to power for Mubarak was not a simple or smooth one. The author here presents an original perspective on the difficulties and controversies surrounding Mubarak's ascension. With unparalleled insights and access to original sources she reveals the life, personality and politics of a man who, determined to secure a distinctive Kuwaiti state, helped to shape the modern Middle East. This biography provides a comprehensive overview of a time of significant political and social change in the Gulf when development, diplomacy, economics, finance and trade were both routes to political independence
