# Little Foxes

## Synopsis

Illustrated with over 100 fox figures made from reclaimed wood, Little Foxes teaches basic recycling techniques to kids of all ages, also including the practice of reducing and reusing everyday household items. Little Foxes is inspired by the great folk icon Malvina Reynolds, a folk singer who wrote a song in 1962 called "Little Boxes." The song was about cheaply made houses that all looked the same and took over the land. It bothered her that people were okay with doing the same thing others were doing and not thinking about their individuality. She wrote a lot of other songs--some for adults that had political messages, and many others for children.

As a child, Hilary Pfeifer was drawn to the works of Edward Lear, Lewis Carroll, A.A.Milne, and other authors who used rhyming and creative wordplay to tell a story. Hilary has combined both her visual and language interests into a series of animal-themed alphabet books with a glossary in the back that makes it fun to learn new words. This year, Little Foxes joins the pack, with over 100 original sculptures made from reclaimed wood that teach kids of all ages about the importance of recycling. Hilary's artistic alter ego goes by the name Bunny with a Toolbelt, where she creates custom wedding cake toppers, nativity sets, and animals of all shapes and sizes from reclaimed wood. These sculptural objects have formed lives of their own in stop-action animations and children's books. Since her very early 20s, Hilary has made her living as an artist known to many for her large scale installation work for museums, galleries, and public and private collections around the world.
