I Hate Myselfie

Synopsis

The audiobook that more than 12 million YouTube subscribers have been waiting for! Shane Dawson's memoir features 20 original essays - uncensored yet surprisingly sweet. Shane Dawson has always been an open book. From his first YouTube vlog back in 2008 to his feature film debut Not Cool to a cover story in Variety magazine, Shane has documented his life pretty thoroughly. We've seen awkward and adorable Q&As with his mom, weight-loss center drama, love life details, and the all-important haircut reveal. We've seen his hilarious spoofs of Miley Cyrus, Paris Hilton, and Sarah Palin. His music videos are awesome. But in his upcoming memoir, fans will finally get a chance to see the real Shane through personal stories that are at once humorous and heartwarming, self-deprecating and totally inspiring. Highlighting key moments of his childhood and adolescence, through his phenomenal success on YouTube, and continuing on to his more recent experiences as an actor and director, Shane's memoir will feature the silliness and satire his fans already enjoy, but it will be even more in depth, more real, and more portable.

Book Information

Audible Audio Edition

Listening Length: 4 hours and 6 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Simon & Schuster Audio

Audible.com Release Date: March 10, 2015

ASIN: B00T87RU4U

Best Sellers Rank: #32 in Books > Audible Audiobooks > Humor > Essays #42 in Books > Audible Audiobooks > Biographies & Memoirs > Entertainers & Celebrities #81 in Books > Humor & Entertainment > Humor > Essays

Customer Reviews

this guy isn't my favorite youtuber but he does bring that quick wit and snarkiness like no other that I enjoy so much and find so entertaining that I actually bought this book with my own pocket money instead of a credit somewhere else because I knew it would be worth it. I found it incredibly funny the 1st time I read it and enjoyed it as a book, second time... I will get into that later. Even if he did hire a ghostwriter, like I'm assuming most of these youtubers do the book is worded in such his signature style you know he was the pretty much the one telling these

stories and he can make even most sad things incredibly hilarious and laugh out loud funny. It was so good I almost finished the whole book during lunch break. With a book I really like after I read it once, I try and read it twice (sometimes more than that) but the second time I read it, I realized oh shhh,, these are actually true stories and they were so depressing. I almost want to believe that he made them up, because a lot of people suck sometimes but here they are brutal. Unfortunately everything (except maybe one ch) had such a ring of truth to it that made me be like, I don't know how he gets up in the morning because if that stuff happened to me I would probably curl into the fetal position or never leave my place again.. This book could be titled I hate people and hear is why, and it would be just as accurate. When you're too bottom of the people chain. people like to step on you or take advantage (I can empathize with some of the remarks about looks esp when I was a teenager and something someone could say about my appearance/whatever could bring you totally down..but never to that extent) but I feel like the people he was around didn't just step, they stomped and trampled all over him, talk about kicking a guy when he's down. And it's not like it really got any better when he got too high up, people just tried to knock him down so IDK, hopefully he has people in his life that aren't total d*ckheads. I can pretty much compare him to the eminem of comedy (except on a much smaller scale as I consider him talented, but not the most talented comedian) where he pretty much uses his past for entertainment and can make it so...Idk the word to describe it. But there's this OTT where people with not that many brain cells will take seriously, that I just find hilarious as well. What I disliked about the book:I read books for entertainment and to get away from reality and this was a bit too real for me, I was like I need my happy ending and rainbows and puppies and unicorns. Life is hard, and this book reminds me too much of real life except all the bad stuff x 10. I don't think he lost one of his jobs because of youtube, he lost it due to poor decision making. But I do agree with him on that people shouldn't be guilty by association. The subtitle of it: I hate essays, I'm glad I'm done with school, I don't want to read about anything with that word in it.What I loved about it:As long as I consider this book pure fiction it's an awesome, hilarious read.The fact that he included his fans in it with their artistry, I found that really cute.Would I read another book by him? Yes, as long as I consider it pure fiction. The book reminds me of a young hollywood quirky movie so that's what I'll think of it as.

The book is funny just like his videos. His stories really tell you about his life outside of YouTube. However, some chapters (stories) of the book are better than others. This book basically is also a

good book for a nice read in one sitting since it is a short book. Bottom line: Worth the money and would recommend to a friend (especially one who watches Shane Dawson so they can read the book with his voice inside their head.)

Love this book. Shane is a hilarious, albeit slightly demented, freaking genius!!! His stories are always funny and always slightly embarrassing.

I love this. Shane is witty & very entertaining. I loved reading his stories about his life & I had moments where I laughed, cried and laughed until I cried. Amazing. Would recommend.

I love Shane Dawson's style of comedy and his book is written just like he speaks in his YouTube videos. I read the entire book in less than a day because I just could not put it down! Every line I read, I could hear Shane's voice saying the words and there were times I actually laughed out loud. Shane is awesome and Onision (Greg) sucks!!! Do NOT buy Onision's terribly written "books." Onision's book, "This Is Why I Hate You" is only 115 pages long.....that is sad and is not worthy of publication. Shane is a legitimate comedian, whereas Onision just tries to rip off other dark comedies and not doing a good job at it either. Way to go Shane Dawson!!! 

Omg, I absolutely loved it. I'm a huge fan of Shane's and I can tell he put his all into his book. I could also tell that he wrote this himself, there was just too much of his personality infused into it there's no way he didn't write this. He is so proud of this book and it's for a credible reason. He is so relatable, and I feel like through reading this book I've learned more about him and even learned something about myself. I also usually don't like biographies and books that just tell normal stories but I found myself in love with this book and the content within it. I would even recommend this to people who don't watch Shane's youtube channels just for the mere fact that I believe everyone could relate to one of his stories he masterfully wrote about within his book.

I loved it. I bought it used and it came to me in very good condition and it was a great read. I would recommend this book and this seller to my friends
