OMG!!!! I am left speechless on this one. I totally enjoyed this book. the characters are made for each other. After Melanie's kidnapping and her not being able to get anyone on the phone I really thought she was a goner, but to my surprise she used her head to get out of the situation with one focus, to tell Jonah she loves him. My girl waited patiently and did escape. 10 points for survival skills. Jonah wow that man is oh gorgeous. Very Dominant but when he heard from Melanie he dropped everything and ran to her in the hospital. He took her home with him and vowed to find her kidnappers along with finding Talon's as well. The chemistry between the two of them is insanely HOT. The story goes on to unfold some other mysteries and that's when things really get interesting. Everything is leading up to the same kidnappers in both cases. I can go on about the book but I need you to buy it and read it yourself. The entire series does not disappoint. Totally in love with this

series. The cliff hanger, WOW it's a dozzzer.

Just finished "Burn", the 5th book in Helen Hardt's Steel Brothers series and I can hardly wait for the next one. Helen Hardt's series is mystery and intrigue couple with romance. It is easy to become attached to her characters and to feel what they are feeling. The story line has more than enough twists and turns to keep readers flying through the pages. I have read all 5 books in this series and couldn't put any of them down. Now I'll have to settle down and wait for Book 6.

I couldn't wait to read this after the cliffhanger at the end of Melt! The story continues with Jonah and Melanie trying to figure out what happened with Talon. No spoilers! Just know that you can't read these as standalones. You have to read 1-4 first, starting with Craving as these flow one into the other. Each one keeps taking over the last as my favorite of the series!

I have really loved reading this series! I am a fast reader though, so sometimes I would finish & have to wait for the next one to come!! I don't think you would not enjoy this series!! Its really good.

Wow! Couldn't put it down once I began. Heart in throat drama, terror, and lust. You are the best. It will be so hard to wait until May to find out what happens. More adventure than Fifty Shades for sure.

OMG!!!!!! I am devastated! I can not wait until May to read Surrender Ã Ä Â^Â© May is too far away. I have not been able to put these books down since I started the Saga 2 weeks ago. I am so already going through withdrawals. These books are better than Fifty Shades of Grey. Love them Helen Hardt. And I've read a lot of books.

I thought I might be a bit lost when *Burn* was released because it was a while since I read book #4, but I was wrong. It wasn't long before my memories of events and the characters came flooding back, proving that the Steel Brothers are memorable. While I was reading *Burn*, I found it very hard to put it down. People and things kept interrupting me as I tried to find out what happens next in this series. Yes, I loved this book just as much as I loved the first four books and even though I want all the ends to be tied up, I also don't want this series to finish. A Word of Warning: *Burn* ends on a cliff hanger, but this book was well worth the pain. BTW, I bought every one of these books. I gave *Burn* 5 sizzling stars. Burn is the fifth book in the Steel Brothers Saga and the second book about Jonah Steel and Dr. Melanie Carmicheal. I have really enjoyed and loved reading this book. I am not really a fast reader but I've read this book and all the other books in the series in a breeze. This book will keep you on the edge, turning pages as the story continues to unravel the mystery of Talon's kidnapping and abductors, and as new connections lead to more questions and answers. This book continues Jonah and Melanie's love story and definitely made me fall deeper in love with their characters. Helen did an amazing job creating a story full of suspense, mystery, and romance, not only with this book but also the ones before. Great read!
