Oh, Vox - why are your books so great and your covers so ugly? When it comes to Spanish dictionaries, nobody beats Vox. Nobody. If you can look past the equally boring and hideous cover, you'll find a wealth of information. What I like best about this dictionary of synonyms and antonyms is that it includes clear explanations of the different connotations of words and sometimes even an example of the word 'in action'. It's a little too hefty to carry around all the time. However, it's an invaluable book to have at home.

I love that this is in all Spanish, it's exactly what I was looking for. I want to translate Spanish to Spanish to deepen my vocabulary or describe opposites etc.

Just as described!!

It is exactly what it suggests.

Very thorough, explains difference in usage

just what my daughter needed

Excelente!!!!

The text came in tip-top condition and arrived well before promised date. The book was recommended to me by a professional and the book lived up to this recommendation.
