# Algeria Pre-colonial History, Colonial Era, And Self-governance: Religious Information, Ethnic Groups, Government And Politics

## Synopsis

Inside Algeria life, early history of Algeria, government of Algeria, Politics, People and environment. A new generation of Muslim leadership emerged in Algeria at the time of World War I and grew to maturity during the 1920s and 1930s. It consisted of a small but influential class of *ʿulamāʾ*, other Algerians whose perception of themselves and their country had been shaped by wartime experiences, and a body of religious reformers and teachers. Some of these people were members of the few wealthy Muslim families that had managed to insinuate themselves into the colonial system in the 1890s and had with difficulty succeeded in obtaining for their sons the French education so coveted by progressive Algerians. Others were among the about 173,000 Algerians who had served in the French army during World War I or the several hundred thousand more who had assisted the French war effort by working in factories
