Customer Reviews

This excellent annotated bibliography should be purchased by any library serving students doing serious papers on Shakespeare. It covers 1511 of the "most significant" English-language books, chapters, and journal articles on Shakespeare that were published from 1900 through 1984. Even better, Champion, a prolific and reputable scholar, has successfully limited his list to works that are "reasonably accessible" in most libraries. There is a "major section on general studies," but otherwise the primary arrangement is by individual works, making it easy for students to browse for research materials. Champion also provides plenty of guidance for users who wish to find materials in addition to those listed. Very highly recommended. Peter Dollard, Alma Coll. Lib., Mich.
