The Alpha Male's Guide To Mastering The Art Of Small Talk

Synopsis

Do you dread work functions? Are you anxious at parties? Avoid networking events? One of the biggest epiphanies I had in life was that social skills are just that...skills. You are no more naturally shy than you are naturally unable to drive a car. You just don't have the practice or guide to teach you. That's where The Alpha Male's Guide to Mastering the Art of Small Talk comes in! Want to be more magnetic, attractive, and able to win friends and influence people? Then look no further! The Alpha Male's Guide to Mastering the Art of Small Talk presents a step-by-step process to enhance your social skills and intelligence. What can social skills do for you? More Relationships More Efficiency: Avoid People You Don't Like Better Career Opportunities Become More Attractive to Women Great Communication Skills Improved Quality of Life Sound good? Here's what you'll learn: The Art of Small Talk The Alpha Male Communicator The Mindset Behind Great Communication Getting Out of Your Head Practical Tips to Become Present Conversation and Context Icebreakers for Attracting Women Approaching Women in ANY Setting Business Communication Tactics The Art of Giving Value Making the Right First Impression Building Attraction: The Volume Knob Analogy The Building Blocks of Charisma Effective Listening And much, much more... Mastering the Art of Small Talk will take your life to the next level! It did for me! Imagine being able to walk into a crowded room and completely work it. Imagine being confident in moving to a new city and being able to make friends in no time. Imagine going up to the hottest girl you see and conversing as if you are talking to your best friend.

ASIN: B01EQTZLU4

Best Sellers Rank: #6 inÂ Books > Audible Audiobooks > Nonfiction > Lifestyle & Home > Antiques & Collectibles #554 inÂ Books > Crafts, Hobbies & Home > Antiques & Collectibles #2078 inÂ Books > Audible Audiobooks > Business & Investing

Customer Reviews

The lessons are pretty useful. Definitely worth the time reading wth Kindle Unlimited. The typos and grammatical errors really take away from the overall readability of the book though. I found myself skimming over a few parts that seemed like filler as well. If I had paid full retail for it, I would be a little irritated. If it were my book, I would edit anything that doesn't directly contribute to each section. And then I would pay someone on Fiverr to proofread it. The information is good. This book could easily get four and five star reviews with an investment of time or a little money.

This book was a disappointment. The author writes about petty subject matter that most of us men are aware of. I was hoping that it would have been more intense than just brushing briefly on basic topics. If you are in search of detail information, you won't find it in this book. On a positive note, it was very, very, easy reading and not much of it. More of a romper room hand book.

Great intro to become aware of the other person and how to connect. Great book for beginners, who wAnts to understand how to be engaged with other people by asking them questions and fully interested with their needs. Key, make them talk about themselves. And you instantly become sensational.

Making small talk can be trying especially for an introvert. Some people may be able to identify with your lame jokes while others may find them crappy. So, if you're searching for some ways to project yourself as a good conversationalist within your social circles or business niche, you'll find this book a helpful read to some extent.

I liked the book because of the simple and easy reading. The only thing that I dislike is that it was short. This book was filled with things easy to use conversation startes

Nice concept based book to learn social skills. It's really important to know something about social. This book inside ideas are so nice that it impress me. Really brilliant writer and deep thought.

Quick guide to help you improve your chances with the ladies. Let's face it most of us need a little guidance. I'm going to put some of the tips in this book into practice.

Some parts of the book are not relevant to me as a woman, but I find the first 3 chapters really useful for me. I am a hot headed person and always has a tendency of messing conversations,

interviews and relationships. The mindset that I usually have goes against me most of the time because I can't control it honestly. But on the first 3 chapters, it was really helpful for me because it made me realize what I could have done rather than the things that I did in the past. The tips that were in these 3 chapters were really useful and I actually wrote down notes on a stick paper so that I always get reminded of what I should do at certain situations.
