# Middle School: Save Rafe! (Middle School Series Book 5)

## Synopsis

James Patterson's hilarious story of perseverance and courage shows everyone's favorite troublemaker, Rafe Khatchadorian, the star of the Middle School series, learning to become a leader at long last. After a rough summer, Rafe is heading back to the dreaded Hills Village Middle School, the site of the very worst years of his life. And as if that's not bad enough, he's learned that he's going to be held back a year unless he can prove himself on an outdoor survival excursion--complete with dangerous white-water rafting, dizzying rock climbing, and fanatical counselors. Rafe and the rest of the pack of "delinquent" trainees are forced to cooperate as they prepare for the final test: a solo excursion in the deep woods. Can Rafe come out of the experience in one piece? And if he does, will he go home as the same insecure kid?

## Customer Reviews

I bought this for my son, who's 13 years old and in the 7th grade. He just loved it. He is a Diary of a Wimpy Kid fan and said this book reminds him of the Wimpy Kid books. Rafe is a middle schooler who faces challenges in school and at home with candor and humor. The book has vivid characters

and sends a positive message.

I read this with my son, Max. We always enjoy the Middle School books. Max loves books set in a school environment. Rafe Khatchadorian is back. The Arts school he was attending is closing and guess what... he will have to go back to Hills Village Middle School. Yep, the place where these stories started and the place Rafe was happy to be expelled from. But, Mrs. Ida P. Stricker is now the principal and the new vice-principal is her sister Charlotte P. Stonecase. Needless to say, neither of them are happy with the idea of Rafe returning to their school. So, they have a condition... Rafe must attend and successfully complete a week in The Program. When Rafe looks at the brochure, he realizes this is no fun week at camp. In fact, the brochure says in boldface letters, "The hardest week of your life is about to begin." My opinion: I enjoyed this book. I always like reading with my son. :) Recommended to: This book is great for kids in grades 3 - 8; I think any kids who enjoy realistic fiction or humorous stories will enjoy it. Patterson's writing is easy to read and there are plenty of pictures throughout the book which are very funny. I introduced my son to James Patterson books and this is the series he has been reading. My son is very picky about the books he reads and he is addicted to the middle school series. He has the entire collection now and he's looking into reading more books by James Patterson.

My son cannot read the series fast enough.

I envy of the best game of the events that can be used to make a difference between two people in middle school of medicine and the new version of the best game of time

I love this book it is amazing just like all the other books in the series. I have been hooked on books like this for a while now. Rafe, is such an amazing character and his adventures are amazing as well. I would recommend this book to anyone, because it doesn't matter how old you are if you want to read an amazing book.

Great product!
