When it comes to dating and relationship, almost everybody has a thing or two to say about the opposite sex. No doubt, there will always be some truth to all the tales, but with Bruce Bryan, you get it straight from the horse's mouth. Advice and tips; coming from someone who has been there and experienced it all. He takes you on a journey from how you can discover a woman's desire and build on that desire to fully understanding who she really is and what she wants. Yes! This book can answer that age old question that every man has asked one time in their life; 'what do women want?' And knowing that alone puts your relationship with your spouse on a different level of fulfillment and happiness. I highly recommend this book even if you've been with your spouse for

years, it will help you to rekindle the spark in your love life and give both of you deeper understanding and appreciation of one another. For the young stars, who are still yet to get a date or just started dating, this book is a must if you want to keep your love by your side.

common sense is not a bad thing, just sometimes we need someone to remind us what we need to do.

Ladies, use this book as a template to weed out the men who don't deserve you. Any man who says "I don't know what women want" or "I don't understand women" is not willing to put forth the effort. If your man is clueless, do yourself a favor and give him this book. If he says "I don't read these types of books" or "I'm busy", move on, unless you enjoy being miserable. If you're woman, help the man in your life be a better man and take charge. Most relationship books (even the ones written by women) put the responsibility for the success of the relationship on women. We must give, give, give, be patient, nurturing and loving while men are men and therefore can't be bothered with feelings. No wonder 87% of all divorces are initiated by women. We can only suppress our true needs and feelings for so long. For men: Even if you feel that a woman is acting irrationally, a real man will take ownership of a problem and resolve to be the peacemaker and conflict resolution expert in the relationship. Most guys will take the easy way out and resign themselves to saying "women are irrational, I don't know what they want". Well, here's one guy who knows what women want and he shares it in this book. "You've got to learn to continually make love to her heart.", "You'll always get out of a relationship exactly what you put into it". You may think this is simple common sense advice but you'd be surprised how many men take women for granted and think "I told her I love her a year ago. What more does she want?" or "I took the trash out last week. What's the problem?". If you want to give her what she needs, (not just what you think she needs), but what she requires in order for her to feel loved, desirable, secure, appreciated, and adored then you need this book.

Wow! I wish they had books like this 15 years ago. It would have saved me from some disastrous relationships. Books like these are a rare find. I found the chapters about how to keep your women helplessly attracted to you very informative and it works. These kind of guides are always great and are needed even though sometimes we think we already know but the fact is no. We don't or at least we forget what we need to do. Pick up this book and get yourself on the right path to being the mate you need to be.

Great tips for relationships! Just wish I could get my bf to read it...

I'm on a mission to make my son "Wife Ready" . This has a lot of good advice. It's short enough that my son who hates to read might get through it but long enough for explanation. I learned a few things myself.

Allowed me to see a different aspect of a relationship with all the complications that can come along. Provided useful solutions that actually works.

Everything he says in this seem legit, I read it and so far he's not lying I got this not because my relationship was bad but because I wanted to make it better and it is because it I highly recommend this book.
