American Foreign Policy: The Dynamics Of Choice In The 21st Century (Fifth Edition)

Synopsis

A balanced and contemporary introduction to U.S. foreign policy, with a built-in reader. Written by one of the leading scholars in the field, *American Foreign Policy* focuses on foreign policy strategy as well as foreign policy politics. The heavily revised Fifth Edition offers greater emphasis on the role that domestic politics and institutions (both formal and informal) play in shaping American foreign policy. A consistent strategic framework (the four Ps: Power, Peace, Prosperity, and Principles) keeps students thinking analytically about policy decisions. And new chapters on key geopolitical regions apply the core concepts from both spheres to the issues that are most relevant today, including the rise of China, the consequences of the euro crisis, and the recent wars in the Middle East.

Bruce Jentleson is professor of public policy and political science at Duke University, where he served from 2000 to 2005 as director of the Terry Sanford Institute of Public Policy. He has served as a senior advisor to the U.S. State Department Policy Planning Director; as a foreign policy aide in the U.S. Senate; and as foreign policy advisor to Al Gore during his 2000 presidential campaign. In addition to numerous articles, he is the co-author of *The End of Arrogance: America in the Global Competition of Ideas*, with Steven Weber.

I have several older versions as well but Jentleson's updates are worth the newer version. There sidebars of information are really informative and give nice insights and the online connections to
