Robert N. Pripps has authored and co-authored dozens of farm tractor books, including Classic Farm Tractors, Vintage Ford Tractors, Big Book of Caterpillar, Big Book of Massey, and more. Pripps lives near Park Falls, Wisconsin, where he owns a maple syrup farm.

This is an excellent history book. It covers history beginning about 1850 when Cyrus McCormick invented his harvesting machine, through the closing of one of our greatest companies ever, International Harvester. Excellent color photos throughout. Also excellent "side" stories, which tie in what was happening at IH with what was happening in the rest of the US and the world.

My 84 year old uncle ran an International Harvester store in the 1950's in a small rural Minnesota city. Once about 10 years ago I gave him a "John Deere" photo frame as a gift and that is when I got the low down on FARMALL! :-) My uncle is a real Farmall "Red" tractor man. So after I got educated, it has been my mission to include this red tractor on birthday cards, a coffee mug and whatever else red tractor appropriate comes my way. This year for some reason I wondered if there was a book that would go into the history of Farmall Tractors? I found this book on and read some of the reviews--all favorable and took a chance ordering the soft cover book having it sent to me first. It is truly a great book for memories it has detailed pictures, advertisements and pictures of Farmall toys. The paperback book is rugged--really a nice one. My uncle is so thrilled with it he couldn't stop thanking me. It is a winner!

It's a great book! It covers every tractor that wore the 'Farmall' decals, and also carries a number of original ads and other memorabilia. It doesn't go into depth on any tractors, so if you're looking for reading/information on a single model or series it wouldn't be the best book for that. But like the 'Bigger Book of John Deere Tractors', it should be required reading for antique tractor fans!

Having been a loyal follower and owner of International Harvester superb products over many years to be able to buy the books and then hand them on to a dear friend who again was a very successful contractor operating IH machinery ,tractors and trucks has been a wonderful experience. The service and attention from has made the whole experience so easy and rewarding. Many thanks. Jim Radich, Hillsborough Auckland ,New Zealand.

I bought this for a friend who has used Farmall's on his farm, collects and loves everything Farmall. He was nearly in tears as he turned the pages with recollections of owning different ones through the years, and loved this book.

A really impressive reference book, with excellent photos and information. It is a big, glossy book that is suitable for the coffee table.I highly recommend this book for the Farmall fanatic.

We purchased this beautiful book as a gift for my dad for his birthday. He has two Farmall tractors which he restored himself and enjoys entering them into shows and competitions. He is very knowledgeable of this brand, but he was very impressed with the information and the gorgeous photographs. He also said there was a good amount of history about Farmall that he was not aware

of and it was very enjoyable to read about. My husband and I flipped through the book when it was received and I have to say it was far more than we expected for the price. The photography is exquisite. If you are a tractor enthusiast, you will love this book! Thanks to for making such a great product available at such a reasonable price.

Very nice book
