I would highly recommend this book for every competitive swimmer and i would also recommend it for every parent who is interested to let their teenage swimmers win races. Coaches should seriously read this book and implement it with swimmers. Swimming is not only physical, its physiological as well and this part is sometimes overlooked in training programs. I improved 5 seconds applying race visualization in my 50 fly. I am a 33yrs old female master swimmer. This is a A must have book

I only gave 4 stars as we are still reading - I would recommend, easy to read and personal stories and techniques can apply to anything.

The information was repetitive from one chapter to another. But I still got a great deal of information out of it and I'm anxious to apply it to my swim competition.
