Mojave Mysteries: Real Tales Of Unknown Creatures, UFOs, Ghosts, Devil Cults, Giants And Mysterious Murders In The California Desert (Desert Paranormal Series Book 1)

Synopsis

Author M.L. Behrman opens his cabinet of curiosities to bring you a deliciously spooky and bizarre collection of true accounts featuring everything from UFOs, unknown creatures, ghosts, hideous murders, demonic cults and some of the weirdest and most puzzling events ever to come out of the great Mojave Desert. Considered "the Rod Serling of the desert", M.L. Behrman offers an intensely interesting and perplexing assortment of stories from witnesses, both modern and historical, detailing their encounters with things that left them shaken, terrified - or worse! Fans of the supernatural and paranormal will find Mojave Mysteries a thrilling addition to their paranormal libraries and collections of strange, bizarre and unknown phenomenon.

Customer Reviews

Started well but could have found most of this from google. Wouldn't recommend if you're looking for something spooky. Kind of disappointed.

This book grabbed my attention, as I too love the desert and jeep around into remote areas. The

stories are well written by an author I can tell is a fellow "desert rat". I've been to some of the places he mentioned and now have a new list of places I want to explore. I don't know why some reviewers claim the stories are false, as the author got a lot of them firsthand from the experiencers. The book has a pleasant variety of ghost stories, UFOs, bigfoot, and the just plain unexplained. I will be looking forward to his next book in this series!

I am somewhat familiar with the Mohave desert and, especially, the area around Joshua Tree, so I could visualize the area and scenery. Some of the stories are downright scary and would make one think twice before camping alone in the desert. Also, I have ordered some fiction horror stories by this author and look forward to reading them.

Actually a fascinating read! I was worried as it's not a big book, but I find I re-read details often so it takes me longer anyway haha, lots of interesting different adventures and stories told in a very genuine believable way! I live in nearby San Diego California and found these to be an interesting break from the totally average "paranormal" books I have read. Not the usual re-told "hauntings" and such, there's so much more in this book! I will be buying more books from this author, he is an interesting dude and tells these stories in a low key way, like talking to a neighbor about stories he has heard:)

Interesting tales, true or not

I love how the author puts the stories together. I love the fact that the book is made up of a lot of short stories.

Was a book of good reading. Like it.

I really liked this book. Since I live in California and know the area he's talking about I found it so interesting. His approach to the subject is terrific. He relays the tale, and tells some of his own, but very objective....this is the tale...make of it what you will. Enjoyed the book a lot, much to my surprise.
