Here is a tip of what NOT to do when searching for Kindle books for your children: Do NOT enter in the search "Free". I usually have amazing luck for myself with this search term when I am looking for something new to read for myself. Not the case for the kids. I sat down with my 4-year-old daughter and entered the Kindle shop and entered in the "free" term into our search of children's books. She saw the picture of the unicorn and instantly wanted it. What 4-year-old girl wouldn't want a pretty pink and purple unicorn?!? The problem started when I started reading the book. Death and plague. That is what this book is about. You read it right. This book, sitting innocently in the realms of children's stories, which I will further tell you was further searched for under the 2-4 year-old tab, is about the plague and death. Now, while I am not opposed to reading some historical info to my daughter, or anything plagues for myself, this book is beyond morbid for a children's series. Especially a children's series that you will find under the "2-4 year old" tab. I sat there for over an hour after reading the first chapter trying to explain the plague to my 4-year-old who was horrified that her beautiful unicorn book was not technically about the fairy tale creatures she loves.

This book was okay but I bought it for my granddaughter and didn't read it to her because of the ending (or lack of). Just left me with a feeling that something was missing.

daughter loved it

A person should not have to mentally edit a book while trying to read it aloud to a child. The grammar and structure of this book are awful. Children should have properly edited (or well written!) reading material so that they can learn to speak English well. In my humble opinion.
