Customer Reviews

If you like the music from this play you will love this book. The pieces are mostly for advanced intermediate.

Love the book, now looking forward to seeing a production. it came in great condition thank you

Wonderful book but I expected there to be the piano with it

This was a good book, and it has some great rock ballads. Love the show.

I have yet to understand why the people who arrange these books feel the need to put the melody in the piano accompaniment, so you have to decide if that bothers you. Usually it isn't difficult to eliminate the melody from what you're playing, but with this particular book I find it quite distracting

in a few places. Otherwise, I have no complaints.

Many moons ago I had the pleasure of seeing Jonathan Larson perform on the Island of Nantucket. We were both very young, he was very talented. I remember sitting on the side of a hill looking at the stars with him. He told me that someday he was going to make it big in New York. Never did I doubt him. What a lovely book "tick, tick... Boom!" is. It takes one back to the true dreams of life and the incredible journey of being young.

Love the book, now looking forward to seeing a production. it came in great condition thank you

Saw the show twice and loved it both times the music itself is amazing. Way better than RENT that's for sure.
