We love this book! If you love to spend good quality time with your children; exploring new and exciting things, then you will love this book too. My husband and I have grown up in Ohio our whole lives and have never heard of half of the things in this book! It was like finding treasure! We have already made many wonderful memories with our family from reading this book. We homeschool and this is a great tool for taking many field trips. The book lists things to do according to area and gives important tips such as: parking fees, admission fees, contact phone numbers, etc. Some places are museums for learning and some are just down right fun! You will be surprised at how many things there are to do for free or little money, too. Who wouldn't like that?

I saw this book at Barnes and Noble and kicked myself for not buying it... so I logged on and of course had it! This guide will give you so many ideas for things to do in Ohio. A great guide for

anyone living in Ohio... we live central... so most of the suggestions are day trips for us... and that is wonderful... I love Ohio... I never realized how much there was out there till I bought this book. Ideas from factories, farms, zoos, and so many... gosh, never thought of going there... ideas! Complete with addresses, numbers and web sites... so you can find out more before you travel. I'm sure we will enjoy this book for years to come! Thanks to the authors! Would make a nice gift for a family also.

very informative if you have children/grandchildren who like to go on little day trips. ultimately you are adding history and geography without them suspecting anything. loads of places to see and go for every kind of enthusiast. also, it's year round for those dreary "i'm bored, there's nothing to do" days. i recommend this as a helpful guide to see what's in our own backyard without spending a lot, or only minimal expense.
