Ramayana

Synopsis

the Ramayana are written in a 32-syllable meter called anuÃ¡Â Â£Ã¡Â Âubh. The Ramayana was an important influence on later Sanskrit poetry and Hindu life and culture. Like the Mahabharata, the Ramayana is not just a story: it presents the teachings of ancient Hindu sages in narrative allegory, The Ramayana also plays an important role in Hindu literature . It depicts the duties of relationships, portraying ideal characters like the ideal father, the ideal servant, the ideal brother, the ideal wife and the ideal king

Customer Reviews

This book is one of the classics from Rajaji. It is written in simple English and is a very good read particularly for kids

ok

Even for someone who does not know any Sanskrit, this book is a pleasure. Just read the English translation. It gives such wonderful descriptions, written in ancient times. Like the description of a forest ashram in the opening chapter.I got this book as a way to improve my Sanskrit by reading a

great story. By having the English translation right on the facing page, I don't have to look up words, which is a real time saver!There are 5 books published by Clay Library for the Ramayana. I started with this one, Book 3, because Rama's time in the forest is my favorite. He has left his old life and is transformed in the course of his forest sojourn.

Well written translation of original sanskrit scripts. Quite lucid, taking the reader to that era when the devils-rakshasas used to overpower the rishis and righteous men.

T'was perfect!

Like the other volumes in this series this volume also gives the original Sanskrit text of Aranya-kanda in Roman script, a very helpful feature. Excellent price, excellent publication.

I bought it for my 9 yrs old kid and he really loved it. This is a very nice and concise book.

This is only the third book of the Ramayana, which somebody who is not familiar with the work would be unable to guess. This is odd as Sattar has published a full version containing this section of the Ramayana which is not available for Kindle.It has no index, making it nearly useless as a reference work.The chapters marked in it do not match up with the chapters in any other edition of the Ramayana, making it difficult to compare translations.Otherwise, it is very readable and if you just want to read a good story, I would recommend buying the hard copy version that includes the entire Ramayana and enjoying it.
