Feng Shui That Makes Sense - Easy Ways To Create A Home That FEELS As Good As It Looks

Synopsis

You don't need to be a professional designer or a feng shui expert in order to have a beautiful, comfortable home. Feng Shui That Makes Sense takes you step-by-step through the process of using feng shui principles to create a home that will please your eye, relax your body, inspire your mind, and lift your spirit. After reading this book, you will be able to:

- Easily create a home of beauty, harmony, and comfort
- Learn basic feng shui principles that work every time in every space
- Improve the look and feel of any room in your home
- Discover the origins of popular feng shui myths and misunderstandings
- Enhance the areas of your home relating to Love, Money, Health, Family, and more
- Apply feng shui principles to your landscape and garden
- Integrate nature and natural materials into your living space
- Clear your home of unwanted energy
- Create a home that nurtures and inspires you physically, mentally, and spiritually
- Understand how and why your environment affects you the way it does

Customer Reviews

"Cathleen takes you to the true heart of feng shui by pushing aside superstition to present the deepest pearls of feng shui wisdom. Her remarkable insights will truly bring more harmony, vitality, and abundance into your life. Highly recommended!!"--Denise Linn, best-selling author of Sacred Space and Feng Shui for the Soul "Cathleen, all I can say is wow! Not only does your approach to feng shui make complete sense, it totally changed my life for the better. This is THE book I've been searching for! I've given it to all my friends and family. Thank you, thank you, thank you!" ---- Amy

Anderson

Cathleen McCandless is a highly respected, nationally known expert, author, teacher, and speaker on the subject of feng shui. With over twenty years experience, Cathleen's unique, no-nonsense and practical approach to feng shui has been featured in many esteemed publications including the New York Times, the Washington Post, the San Diego Union Tribune, the Denver Post, the Houston Chronicle and the Los Angeles Times. Named "The Best Feng Shui Expert in San Diego" by San Diego Magazine, Cathleen's radio and television appearances include everything from prime-time newscasts to a starring role in the nation-wide television series, Feng Shui Living. Cathleen's vast clientele ranges from busy homemakers to top executives of many Fortune 500 companies. Participants in her workshops and lectures delight in her warm, relaxed, and entertaining teaching style and benefit from her many years of research and first-hand experience in the fields of feng shui and environmental psychology.

My daughter asked for a Feng Shui book for her birthday. I looked over MANY different ones before deciding on this one. It's great! I know because I have been enjoying reading it with her and applying many of the principles to our decor. I love that it is much more practical than many I looked at. Some of the old concepts of Feng Shui just aren't practical for modern day America. From keeping our tv in the living room as a practical focal point to more modern ideas of the bathrooms energy and function, this book finds the perfect balance to create what I call practical Feng Shui. This is by far the best one I've found on Feng Shui decorating. It is easy to read and the topics are organized easily for quick referencing. The book is very thorough and well written. I appreciate the examples throughout the book as well. Clear and concise, practical and in depth. I feel I found the right book choice for my daughters wants and needs. Thanks!

...and you DO NEED to read this! Feng shui gets such a bad rep because of all the nonsensical misinformation that's out there- this book does a FANTASTIC job of getting to the core of REAL feng shui, and it does it in such a clear and easily understandable manner that you can start applying it to your own living space immediately. I had heard all kinds of nutty things about feng shui before, but boy am I glad that I came across this book and discovered what feng shui REALLY is about! It has given me a whole new perspective on life and truly enhanced it in so many ways. I don't normally write online reviews, (in fact this is my first one on), but I felt compelled to share this- this really is good information that can improve people's lives in a major way. And it's NOT weird or

esoteric!

I have always loved Feng shui, love the simplicity of it. It makes you feel zen and at peace. We have done little things here and there and it always helps.

Over exceeded my expectations. This. Ok is awesome. It's very informative and yet a simple read. It has forever changed the way I look at my home's interior design and home accessories, including plants....as well as offices/business. It's truly phenomenal reading material. I browsed every book there is on this topic and I suggest this one.

Very nice intro book to feng shui. The author takes a more practical, less superstitious approach to feng shui, relating it more to how certain environments make the human animal feel rather than relying on "lucky this" or "unlucky that" to stake a claim. She sticks with what decisions and factors make us comfortable, safe, and happy versus uneasy, threatened, and miserable. An easy read with good tips. I wound up skipping lots of the anecdotes, which are always hard to write without seeming self-congratulatory, I guess. I've taken some of her suggestions to heart and have actually experienced some positive results. Would recommend to beginners who want to know what feng shui is all about.

Finally a Feng Shui book that is easy to understand and does not turn into a lifetime of study just to know where what wall to put your bed at. She gives easy answers and I love how she tells you about the background of why there are so many faults Feng Shui remedies. I have had many books on this subject and trust me, this is the one to get and be done with.

I really like the author and this book. I am re-designing my apartment accordingly. I have high expectations for books on feng shui and this book is a great one. I have read the title on my kindle. Will likely buy the actual book as well.

7/2/2014: This is an addendum to my initial review. The author has made this book very accessible, very practical, and a book which, while I am working on making our house into our home right now, something I use every day. This author has gone WAY above and beyond the norm to create a practical, well written volume that feels friendly and very practically informative, useful and accessible. I have been consulting this book as I arrange and decorate, balance and organize my

new rental home. It is easy to follow but detailed enough to really help me to maximize the chi (good energy), our finances and our comfort and health becoming more and more what we want it to be deeply inside and out. We are able to do this within our fairly tight budget, too thanks to the various suggestions we have found in . She explains how to figure out the most important things to do as we start. I can truly say that it makes a huge difference. My husband and I both feel better as we implement as many of the suggestions from this resource e-book. Room by room, space by space inside and outside, we can feel our relationship (great already) start to gently change for the better. We have new friendships, New greater abundance growing, our close relationships without grown kids and US friends are getting even stronger, we have found a coop that delivers organic, locally grown veges and comforts, our health seems to be improving gently (we both have Multiple sclerosis plus I had resistant Lyme that's finally responding to the treatment after seven years, and so far the rest of me is better more of the time. I am even sleeping more soundly. About a dozen years ago I studied online to obtain greater skills and certification in both landscaping and interior design (and in decorating, earlier.) I have done Fung Shui work previously for myself and clientele. I sure wish I had owned this book when I was well enough to help others! I can say with absolutely no exaggeration, how well written, useful, complete I am confident a treasure of a resource book and a good way to make your home and garden feel great and support you profoundly. Enjoy and feel free to connect if you think I might be able to help with anything. I hope you enjoy this great and also simple resource as are we! Check Pinterest too... Namaste, Laurie Sherman
