Customer Reviews

Beautifully illustrated with reproductions and both contemporary and archival photos, this beginning reader biography recaps elements of Lincoln's life from childhood through his ongoing

national legacy. Boxed facts and quotations from Lincoln himself are well set on the narrative pages, creating a layout that is engaging without being overwhelmingly busy. As with many nonfiction series books for the early-reader audience, the choice of vocabulary words that are defined in the appended glossary is sometimes curious, and some highly complex subjects, such as slavery, will need more discussion. Overall, though, the content and the presentation, including a brief quiz at the end, offer a readily accessible entry to the world of biography. Age-appropriate digital add-ons (prizes for quiz completion and a QR code to a video) add to this title's appeal. Grades 1-3.

"If you have independent readers who are capable of reading longer sentences and who need information on Abraham Lincoln, this is the book." --Library Media Connection

My 1st grader had a book report to do on an assigned American Hero, and this was his assignment. I think this book is well put together and has some interesting facts, however there is a large portion dedicated to the civil war and slavery. I felt like this material was above what a first grader can really comprehend even though it was put into the most simple terms possible. I also don't think first graders have any business doing book reports though. If I were to do it again I think I'd just print out some information from online and let him use that as the material for his report. You certainly can find a wealth of information online and this skims the surface.

Great little history book, son loves it!

Was required summer reading for my emerging 2nd grader

good read

Great book! My son had to do a biography book report and wasn't thrilled about it. But I bought him this book and he actually got into it! He enjoyed reading it and got a lot of neat facts for his report. And he even enjoyed doing his book report. He is on a 2nd to beginning 3rd grade reading level.

Another great bio from National Geographic. Who doesn't love stories about Abe Lincoln? Good facts, interesting story and easy to read for struggling readers.

Great book for my 5 yr old grandson.

This small read was easy to understand yet interesting. I am glad that I purchased this book to learn about Lincoln.
