Love And Respect: The Love She Most Desires; The Respect He Desperately Needs

Synopsis

A Marriage Book with a Difference! A Revolutionary Message "I've been married 35 years and have not heard this taught." "This is the key that I have been missing." "You connected all the dots for me." "As a counselor, I have never been so excited about any material." "You're on to something huge here." A Simple Message A wife has one driving need: to feel loved. When that need is met, she is happy. A husband has one driving need: to feel respected. When that need is met, he is happy. When either of these needs isn't met, things get crazy. Love and Respect reveals why spouses react negatively to each other and how they can deal with such conflict quickly, easily, and biblically. A Message That Works Based on over three decades of counseling, as well as scientific and biblical research, Dr. Emerson Eggerichs and his wife, Sarah, have already taken the Love and Respect message across America and are changing the way couples talk to, think about, and treat each other. What do you want for your marriage? Want some peace? Want to feel close? Want to feel valued? Want to experience marriage the way God intended? Then why not try some Love and Respect?

Customer Reviews

We just celebrated our 30th anniversary. This book and video series was the only thing that genuinely helped us. All our other marriage seminars, books, etc. focused on communication. We were communicating fairly well, just were always butting heads trying to get the other to change/not understanding why we were always butting heads when we loved each other and agreed on so many life issues. This book changed our marriage for the first time, because it helped me

understand that my husband is just plain wired differently and MUST feel respect. He would get mad, but I'd have no idea why - because I was looking from a female perspective. Finally, as I changed my interactions with him, he felt respected and calmed down. He had always treated me very well, but after I changed, his feelings for me seemed to go deeper. I could go on but won't. I recommend this book and ministry to everyone I encounter.

I have this book already but ordered it for someone else, from . This is a very good guide. Definitely something to purchase before getting married or as a wedding gift. Initially, I felt like, my husband should be reading this book when I first read it. Till this day, he has never read this book! From reading this book I noticed by making small changes in the way I communicated and reacted I began to see big time changes in my marriage. This was just one of the tools that helped me out during a rough time in my marriage and I have been married as of today for 12 years, early on, I wasn't sure how long our marriage would last.

At first I loved this book but as I grew older I realized it is very biased. It is not a functional way to live. As my marriage has grown I have learned it is not an equal give-take. There are some concepts in this book that suggest masking or avoiding issues that are meaningful to one person in favor of "keeping peace." It is obviously spun very religiously. The male leader and the female subservient. This model is out dated in my opinion.

This book was amazingly helpful. It has wonderful information and makes so much sense. I would recommend this book to people who are married or single. It can be applied to every person you come in contact with. Thank you for the truth, love and respect that you are teaching!

The best book I have read for understanding the the only specific needs and perspectives of men and women and how to serve one another. Written from the truths of God's word.

Awesome book! Transformed my courtship experience and has laid a strong foundation for my marriage!! Every couple needs to read this book. It will change your marriage and life!!

Love this book! My husband and I read it together and briefly discussed each chapter. We have a wonderful marriage already but we enjoy reading Christian marriage books together and this is definitely a favorite!

This book could change the whole way you view your relationship. This book has shifted my heart to be a better wife to my husband, and him be a better husband to me. Men and women have different needs and this book helps better understand them.
