## Rare Views

## Synopsis

Ohm's photos, in both b/w and colour, allow the viewer to become a voyeur. The apparently coincidental moments he records leave the impression of the illicit observation of young men in the midst of very private moments and intimate situations. His perspective captures candid scenes without any fuss, really quite rare glimpses. Fans of sexy men in an unstaged photographic environment will definitely want this as an addition to their fine art collections.

Hot guys, it sits nice on my bookshelf.

The book itself is beautiful and sexy, the photography just right. The vendor I ordered this book from delivered as promised in a timely manner and in perfect/new condition.

Super hot, not pornographic, barely any pictures with more than one guy in them and the one that are of multiple guys aren't touching at all. It's just a bunch of really hot erotic nudes. Some of the

guys seem to have a "aren't I the most interesting naked 20 year old you've ever seen" smug snarl typical of a lot of young semi-decent looking guys out here in LA but I'm just nit picking. Still a great book, hot enough to yank it to but not so graphic to where it's unacceptable on a coffee table...of a gay guys house

Excellent book, very grid pics of everyday male life
