Adolescence And Emerging Adulthood: A Cultural Approach (4th Edition)

Synopsis

For undergraduate courses in Adolescence and Adolescent Development Focused on a global cultural perspective that incorporates research on adolescence through emerging adulthood Grounded in a global cultural perspective (within and outside of the US), this text includes a considerable amount of anthropology, sociology, and international research in addition to the compelling psychological research on adolescent development. This book also takes into account the period of emerging adulthood (ages 18-25), an area sometimes neglected but of particular interest to many students who see themselves reflected in the research. Looking for additional resources to help you understand the material and succeed in this course?

MyDevelopmentLab contains study tools such as flashcards, self tests, videos, as well as MyVirtualTeen which allows you to raise your own virtual teenager, focusing on the ages 10 through 18. MyDevelopmentLab is available at www.mydevelopmentlab.com.

Customer Reviews

MyDevelopmentLab with MyVirtualTeen is a learning and assessment tool that allows instructors to assess student performance and adapt course content without investing a lot of additional time or resources. Students benefit from this easy-to-use site with or without their instructor's involvement. Students can test themselves on key content, track their progress, and utilize individually tailored study plan activities, including an e-book, simulations, newsfeeds, videos, and application exercises. MyDevelopmentLab also provides students the opportunity to raise a

virtual child from birth to age 18 and monitor the effects of specific parenting decisions over time, with a specific focus on the teenage years.

Jeffrey Jensen Arnett is Research Associate Professor at the University of Maryland. He has also taught at the University of Virginia, Oglethorpe University, and the University of Missouri. He was educated at Michigan State University (undergraduate), the University of Virginia (graduate school), and the University of Chicago (postdoctoral studies). His research interests are in risk behavior in adolescence (especially cigarette smoking), media use in adolescence (especially music), and a wide range of topics in emerging adulthood. He is editor of the Journal of Adolescent Research and the Routledge International Encyclopedia of Adolescence. In addition, he is on the editorial boards of Identity, Journal of Youth & Adolescence, and Youth & Society. His book *Emerging Adulthood: The Winding Road from the Late Teens Through the Twenties* was recently published by Oxford University Press. He lives in University Park, Maryland, with his wife Lene Jensen and their three-year-old twins, Paris and Miles. Jeff Arnett was referenced in a NY Times article. Arnett's writing style is culture-neutral -- not presenting any one culture above other like many authors have fallen fowl. And on top of that, he has packed the book with factual information that keeps you wanting to reread the text every time. There are a few books I keep after the rental expires, this is certainly one of them, and I am going to learn from it, and teach my adolescent children the subject matter of adolescent psychology.

good text book. I'm not sure how to rate this. It's not like I got this book because it was on a best seller list. I got it for a class and have barely looked at it. works great to keep my desk from looking too empty.

With this being my first time as a parent of an adolescent boy, this book has been very helpful in understanding why he acts the way he does. Now I can somewhat understand his ridiculous behavior and attitude problems.

great condition!

Shipping was great, and it's in good shape. Just needed it for a college course and I'm happy with it!

The sellers mentioned that there would be some highlighting and such, but the book was in very good condition and the underlining/highlighting did not detract from the quality at all. It's always great to spend only \$3 for a college text book.

It's a text book. I only bought it because I had to and nothing more. It got me through the class and had some helpful information but other than that it is exactly what it is, "a text book"

Love it
