Includes the latest trail routes, designated campsite and lean-to locations, DEC regulations and updated trail mileages. The latest edition of the High Peaks topographic trail map is included. Authors: Linda Laing and Jack Freeman.

I wouldn't be caught dead without this map. This is the most comprehensive map of the Adirondack trails. Usually it comes in back of the ADK book "High peaks of the Adirondacks" by the Adirondack Mountain Club Press. It shows each and every campsite, lean-to, trailhead, trail junction and DEC Interior Outpost. It tells you the color of the trail markers, the distances.... everything (Oh yeah, its also topographical with USGS84 GPS co'ord's printed on it).If you are going up to the high peaks of the Adirondacks, and plan on going in more then 1/2 a mile, this is required.
