Book by Garrick, Neville

Book could of had more pictures, was just ok probably will donate to the public library. Know it will be appreciated.

During the course of slavery, Africans throughout the so-called new world found in Ethiopia a symbol of hope, light, and promise. Just over a century ago, African-Americans, West Indians and continental Africans celebrated the defeat of Italian would-be colonialists at Adwa. And a few short years before the Spanish conflict which heralded the Second World War, African-Americans fought pitched battles in Manhattan against pro-fascist Italian supporters of Mussolini. South of them, the first generation of Rastafarians joined to celebrate the coronation of Ras Tafari as Emperor Haile Selassie I. So you see, we've had an interest in Ethiopia for quite some time, those of us in bondage. And in *A Rasta's Pilgrimage*, Neville Garrick has accomplished a unique dual task: he has shown us the face of contemporary Ethiopia whilst revealing a nation steeped in history. This book is a PanAfrican travelogue, a stunning meditation on the beauty and connections of Africans throughout the world by an artist of longtime Rasta faith. It is quite simply a beautiful book. Check it

out.

Anytime I am homesick I pick up a specific stack of books to take me back home, and this is one of them. This book is laden with beautiful pictures from all over Ethiopia, but, the author does not stop there. He has also filled the book with plenty of need to know information about the culture, landmarks, and of course, the people. This is a great introduction for people interested in Ethiopia.

I have to admit I was somewhat dissatisfied by this book. I bought it mostly for the pictures but was also interested in seeing the country through a rasta's perspective. The text was somewhat informative but there was really not too unique about the information in there. There are definitely quite a few pictures, however I didn't think any of them were all that spectacular. Despite all this I would still give a lukewarm recommendation due to the fact that it is a book about Ethiopia, which isn't too easy to find. Keep in mind this is just my opinion, others may really enjoy it, I guess it just wasn't geared towards what I was looking for.

Neville Garrick should receive praises for this book. I have never seen no book that shows the beauty, the glory, and the power of Africa like this one. I think that this book also shows not just dread but Rastafarian dread, orthodox dread, etc... I hope you pick up this book and marvel in its journey. Praise to the most HIGH.
