Awake

Synopsis

Don't miss the latest gripping, high-stakes thriller from Wattpad sensation Natasha Preston, author of the New York Times Bestseller, *The Cellar*. Of course, the dress was white. This is what I'm supposed to die in, I thought. Not many people knew what their last outfit would be. I pulled it over my head. It fit me perfectly. It had long, loose fitting sleeves, a modest neckline, and waves of material on the skirt. I hated it. There were no shoes, and I was afraid I'd have to run through the forest barefoot but there weren't a lot of options. Besides, I'd run barefoot over a bed of nails to get away. "Scarlett, are you ready?" he called. I looked in the mirror and took a deep breath. Time to fight for my life. Scarlett Garner doesn't remember anything before the age of four-until a car accident changes everything. She starts to remember pieces of a past that frighten her. A past her parents hid from her...and a secret that could get her killed.

Book Information

Gr 8 Up
•Scarlett Garner has a gap in her memory. She can't remember anything before her fourth birthday and because she always develops a headache when she tries, she is starting to accept that her memories are likely lost for good. When Scarlett meets Noah, the new guy at school, she falls hard and fast; Noah is just as smitten as she and quickly begins helping Scarlett work toward regaining her memory. But when Scarlett is in a car accident and starts to have flashbacks, she isn't sure that she wants to remember after all. Fortunately, Noah is the very definition of emotional support. Unfortunately, his motives may not be as pure as they seem. Although centered on Scarlett, if it weren't for the love interest, the novel's interesting but far-fetched plot can

anyone really remember their first four years? – would fall completely flat. Noah dictates the pace of the work and Noah creates and sustains the mood; readers quickly learn that he isn't as he seems and as each chapter reveals just a little more of who Noah really is, readers will find themselves questioning every minute he spends with his would-be victim. Although the progression of Scarlett's relationship with Noah is unrealistic and the thoughts of both characters are repetitive at times, Noah's internal crisis and ultimate decision will keep readers intrigued. VERDICT An engaging but flawed thriller. – Maggie Mason Smith, Clemson University R. M. Cooper Library, South Carolina

Natasha Preston is the New York Times bestselling author of *The Cellar*. A UK native, she discovered her love of writing when she shared a story online and hasn't looked back. She enjoys writing romance, thrillers, gritty YA, and the occasional serial killer.

This is a good book for young readers. That being said I'm a little over that age bracket it so I found it a bit cheesy, for lack of a better word. The beginning especially, think Stephanie Meyer's "Twilight." That's not necessarily a bad thing I guess, but it just wasn't for me. The story has a pretty good basis, it's just somewhat unbelievable and childish at times. I would recommend it for teens though

I couldn't put this book down! I just discovered Natasha Preston as an author, being the cellar as a first read. I was delighted to see more books by her and this one did not disappoint. What starts out a love story soon takes a twist, slowly she adds things into the book that make you start to question everything. The plot twist, the intensity of every turn brings so many emotions. If you enjoy edge of your seat, can't stop until you know books, then I highly recommend reading this.

Natasha never disappoints me. Well written and a great twist kept me guessing till the end! I finished in it 2 days I couldn't put it down

This was a book I couldn't put down. Enjoyed the stories ups and downs as well as the relationship between the Scarlett and Noah!

Great book buy it!

Great book.

Was hoping for a spine chiller ending (which is what the Barnes and noble employee stated), but I liked how it ended. It took a bit to get to exactly what was going on, but it ended up being a great page turner!!! Totally called the ending half way through the book. I kept trying to find out what was going to happen and once it did, it went full force until the end! Great read!

Book came in good new condition! And definitely an easy read. I enjoy reading Natasha Preston books.
